

Parrot's Cove

By Falos aka Falos Munera

Spanish Main, 1670: i possedimenti spagnoli nel Mar dei Caraibi attirano avventurieri alla ricerca di ricchezze. Galeoni carichi di dobloni attraversano l'oceano per raggiungere la madrepatria nonostante i pericoli della Natura e dei predoni del mare. Durante un abbordaggio di un galeone diretto verso la Spagna il governatore Marcus De Leon viene brutalmente assassinato e il suo corpo gettato in mare. A Nassau, l'isola del governatore, la figlia Katarina apprende la triste e terribile notizia. Ma Katarina non è una dama iberica trasferitasi nel Nuovo Mondo per seguire la carriera del padre: è una donna carismatica e coraggiosa, e nelle sue vene scorre il sangue di Mara Rosseau, una donna pirata francese che sposò il giovane Marcus. Katarina scopre l'autore dell'abbordaggio e dell'assassinio di suo padre è nientemeno che un corsaro che lavorava per lo stesso governatore. Katarina, in quanto figlia, conosce il suo covo: un piccolo scoglio non segnato sulle mappe chiamato Parrot's Cove...

Spanish Main, 1670: Spanish's possessions in the Carribean attract adventurers looking for treasures. Galleons filled with doubloons traverse the ocean to reach the homeland in spite of nature's dangers and the sea raiders. During the boarding of a galleon that was directed to Spain, the governor Marcus De Leon is brutally killed and his body is thrown in the sea. On Nassau, the governor's island, his daughter Katarina learns the sad and terrible news. But Katarina isn't an iberian lady who moved to the New World to follow her father's footsteps: she's a brave and carismatic woman, and in her veins flows the blood of Mara Rosseau, a french female pirate who married the young Marcus. Katarina finds out that the autor of the boarding and the killing of her father is no one but a corsair who used to work for the governor himself. Katarina, being her daughter, knows his den: a little uncharted rock called "Parrot's Cove".

Spanish Main, 1670: Μέτα ένα γιουρούσι σε εχθρικό πλοίο, ο ισπανικός άρχοντας Μάρκος Ντε Λεόν δολοφονήθηκε. Η κόρη του, η Κατάρινα, θέλει να ανακαλύψει το μυστήριο πάνω το θάνατο του πάτερα της. Μα η Κατάρινα ακόμα και είναι η κόρη της Μάρας, μια γαλλική πειρατή που παντρεύτηκε τον Μάρκου: το πειρατικό αίμα είναι μέσα τις φλέβες της. Το ηρωικό κορίτσι ανακάλυψε ότι ο δολοφόνος τον πάτερα της είναι ένα αξιόπιστος κουρσάρος του. Η Κατάρινα αποφάσισε να τον βρει στο νησάκι του, το Άντρο του Παπαγάλου...
