Introduction

Welcome to my second advent level for the levelbase. Please read the following instructions so you won't run into trouble. And I wish you fun in helping Lara mastering her challenge ... ;)

Story

A pink gnome, a helper of Santa Claus, runs into a mishap.

Until delivery the presents are kept safe in a castle near the north pole. But the little pink gnome accidentally had the doors for the present hall closed.

Now who could possibly open these doors again?

Well there is an obvious choice - our favourite heroine Lara Croft.

So without further ado Lara gets hijacked and brought to the castle

Gameplay hints

Springboards:

At a certain point in the game you will activate those springboards, they alter Lara's jumps.

To use them step onto them and perform a standing jump (forwards).

Or you can do a running jump over the springboard.

Pushing Blocks :

You can push some pushing blocks over edges, this is necessary to solve some of the puzzles.

Special Moves :

are only present in the bonus level „Stranded II Demo“.

You can learn about them in the first (training) level.

Secrets

There are two Secrets in the main level, a silver and a golden shield.

You can see the both of them from the

beginning. However you can not touch them.
You will have to find a different way to get to
them.

If you manage to collect them both, you will get
to the bonus level
"Stranded II - Demo".

Here you can play the beginning of that level
in production.

Being an advent game, there are no enemies.

Credits

The levels and some objects were made by me
Lara Croft alias: Nerkan

Many Thanks to the testers;
Deinser84, Markus, Eelkemama, Michael Otto,
Marcelo, Kingdom-Hearts, Raymond
