## 1 - STORY

“Never trust what your eyes don't see moving...”

In the search for the Dagger of Xian in Tomb Raider II, Lara Croft collected 16 Jade Dragons that are stored in her mansion. During her archaeological research, Lara discovers that there is a total of 17 Jade Dragons, but this last one is said to be a mysterious relic with supernatural characteristics that may cause hallucinations, delusions and suffering. At the same time, it is estimated that such a relic can provide its owner with certain psychic controls, being necessary to eliminate its powers so as not to fall into the wrong hands. Its location was never discovered, but evidence points to an abandoned eastern mansion that is suspiciously targeted by mercenaries.

Join Lara on this adventure in search of the last Jade Dragon. Nothing could go wrong... or?

In this game:

- Explore a spooky mansion with intriguing twists to find the Jade Dragon
- Solve puzzles and face the horror deep inside your mind
- Challenge custom and modified enemies/traps from the original TR2
- Help Lara Croft to escape the illusions alive and to remove the Jade Dragon's powers.
