

THE FORBIDDEN PLACE
BY
MAHETUS, BLACKWOLFTR AND
LEOC1995

Hi, Thank you for downloading my level set. Hope you'll enjoy it ☺

Make sure you've opened one of the recommended .reg file settings, so the needed features will be there. ;)

ABOUT THE LEVEL

This level set is built specially for my close friend SnipingSaix for his birthday. It's a belated birthday gift, as I came up with this idea "a little" too late
xD

But... at least it is available. :D

I am open for any **criticism**, so don't be afraid to say what you not like but don't bash it for no reason. There's a difference between constructive criticism and constant bashing. ;)

Level set also includes some memes/inside jokes known from Steven35175 discord server.

There's also an easter egg related to another game. It's impossible to miss it, as it's a part of the plot. :P

STORY

Lara heard rumors about people dying under weird circumstances. She decides to check out what caused this.... At some point Lara notices there's an artifact she saw in her dream few days ago. She immediately realizes this adventure won't be the same as her previous ones.

BETATESTERS

- BlackWolfTR
- Danath
- Delca
- Kubsy
- Leoc1995
- LoreRaider
- Nanaki Azakee
- Olympus Mons
- Pedro Croft (only first level)
- TombExplorer
- Steven35175

KNOWN ISSUES

- There's an existing collision on static objects that should not have it at all. I've tried to fix it yet without any result unfortunately.
 - If you encounter flickering geometry, objects and etc. Make sure to press **F7** to turn on Z-Buffer. A few betatesters mentioned this setting doesn't turn on despite applying the .reg file.
 - Level set have falling pushable blocks. If there's any pushblock the fall in the room. **Do not reload the game.** If you do that pushblock will lose collision which directly leads to softlock. It's an unfixable engine bug.
- ☹
- Minor issue but it is worth to mention. One puzzle uses audio track that is perfectly timed with the one effect. If you save and reload the game. Audio track will disappear yet it won't affect the effect whatsoever.

Credits and other stuff are mentioned in the
credits sequence.

Enjoy the level! <3
